**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kacvinsky, John (Reg. NO. 40,040) on 10/9/08.

The application has been amended as follows:

Please cancel claims, 17-19, 21-22, 31-32, 36-38 and 40-45.

***Allowable Subject Matter***

Claims 1-11, 13-16, 20, 23-30, 33-35 and 39 are allowed.

The following is an examiner's statement of reasons for allowance:

**As per claims 1-11, 13-16, 20, 23-30, 33-35 and 39:** the claims are directed to channel/link diversity. The prior art of record does not explicitly teach or fairly suggest --- generating control signals to configure a base transceiver station to transmit selected data streams to a mobile communications device on an assigned communication channel of a multiple access protocol, wherein a mobile communications device receives the selected data streams through a plurality of electric dipole antennae and a plurality of magnetic dipole antennae, as recited, particularly in claims 1, 11, 20, 30, 39 and further argued by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
